MVP SUBMISSION

Make the Landing

A sponsor-revenue engine for Red Rocks NIL.

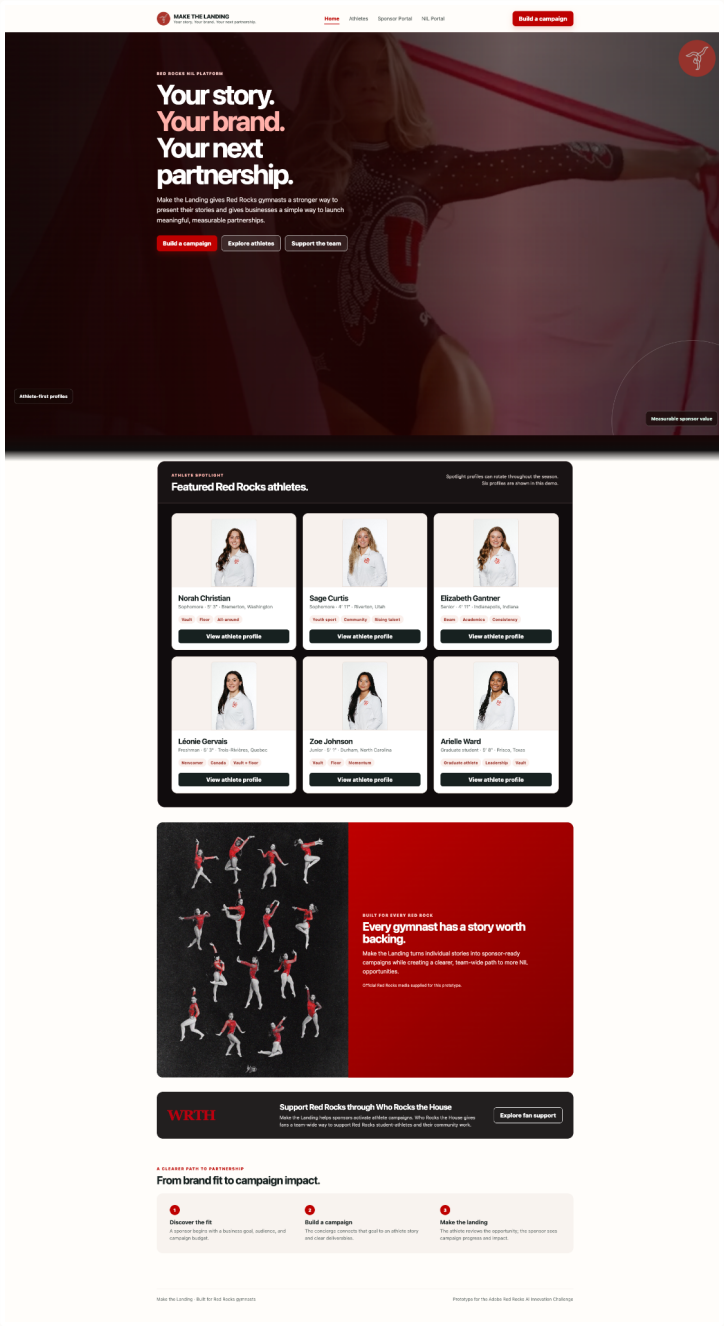

This PDF documents the functional MVP through seven product screens.

What the MVP demonstrates:
- Athlete discovery and partnership fit
- Tiered sponsor campaign builder with a tailored recommendation
- Athlete approval before a campaign launches
- Adobe Express creative, QR attribution, and campaign assets
- Sponsor ROI reporting and a repeatable NIL funding model

Prototype note: campaign financials, results, and availability are illustrative. Athlete approval is required for every partnership; actual payment, compliance, and licensing terms would be managed by approved partners.

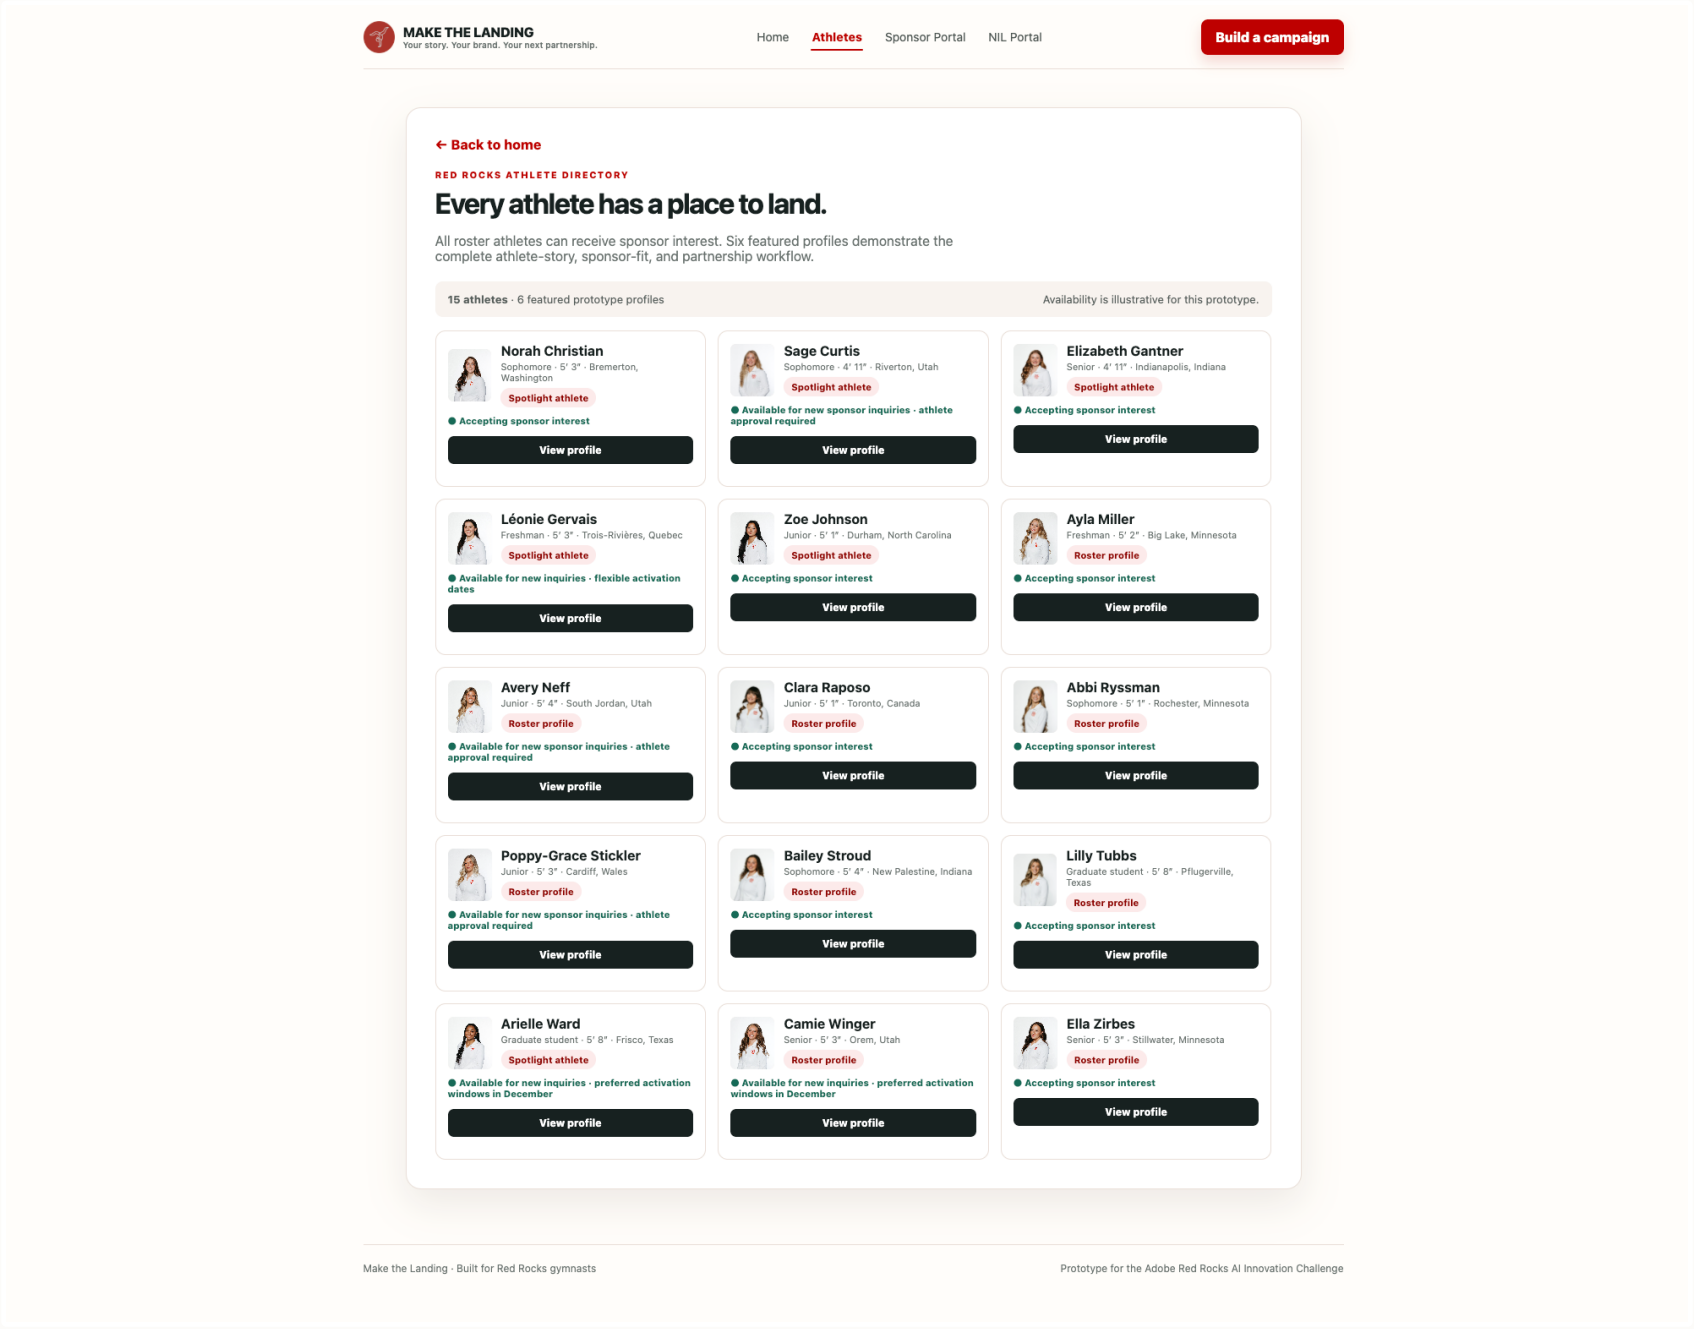

01 HOME

The updated landing page introduces the athlete-first platform and its pathway from sponsor fit to campaign impact.

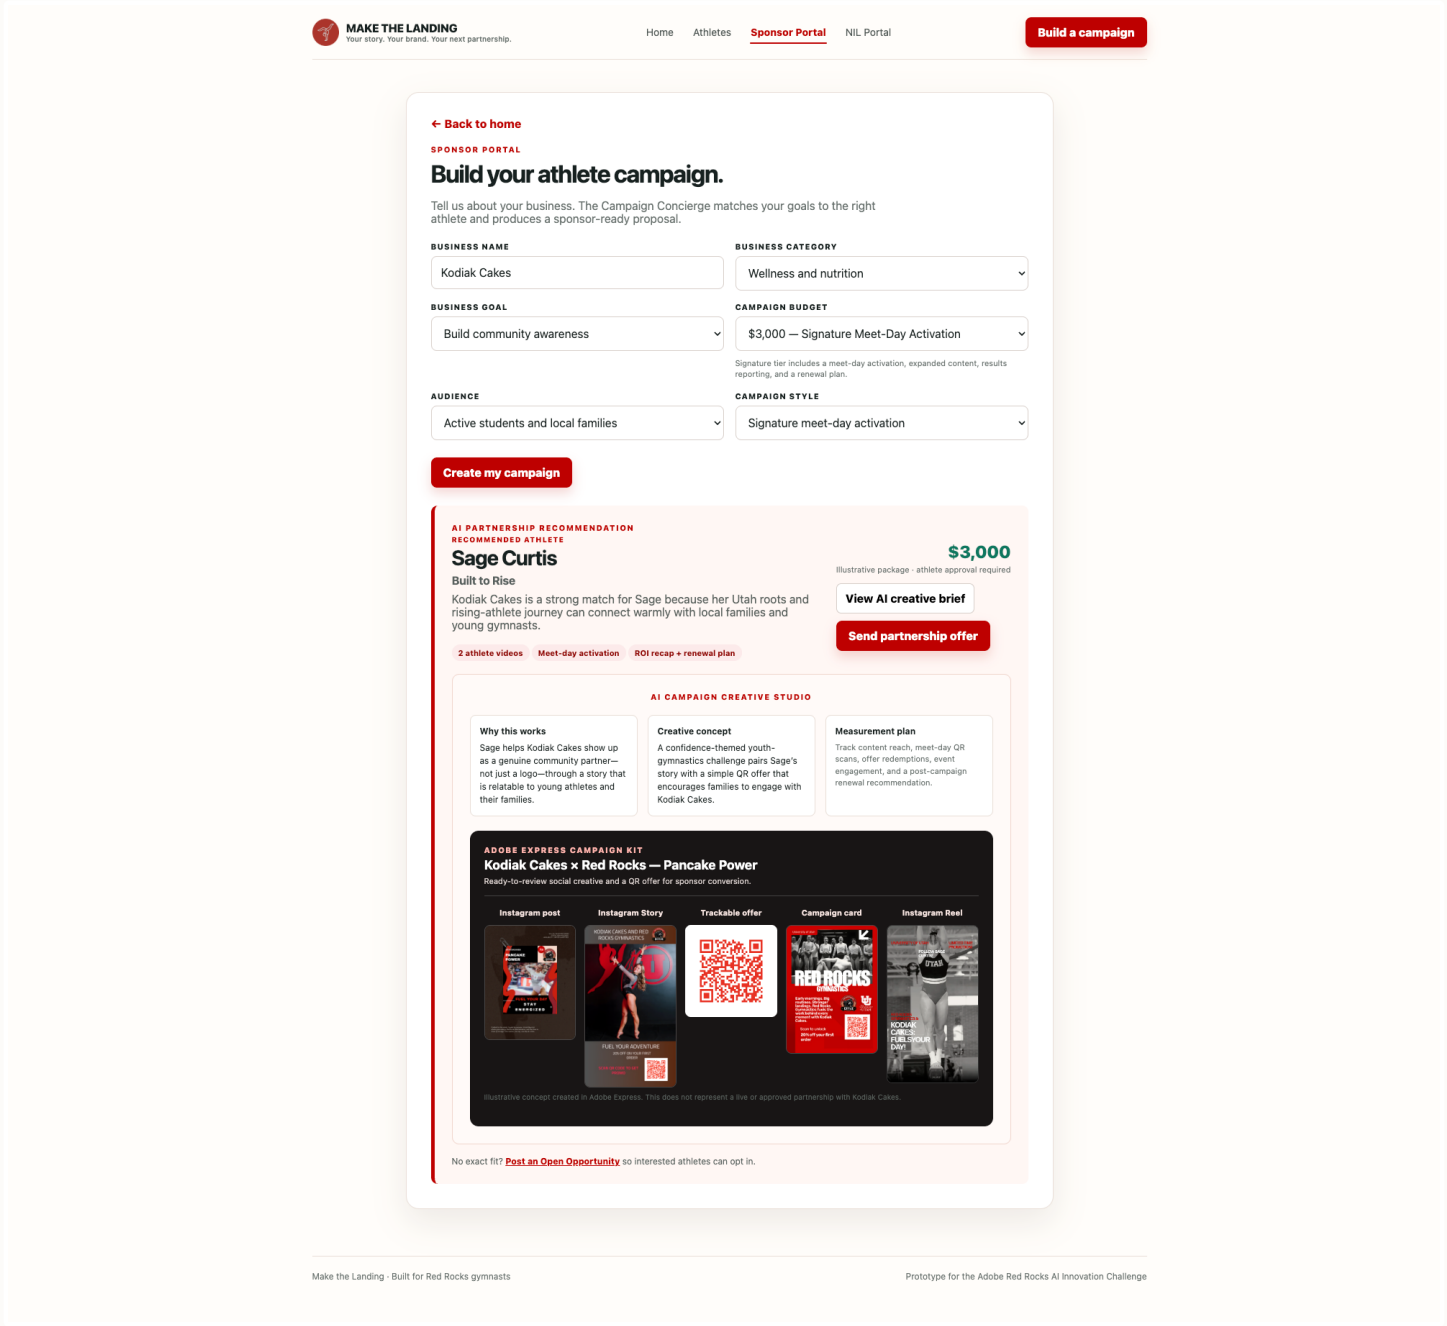

02 ATHLETE DIRECTORY

Sponsors can browse the full Red Rocks roster and see illustrative availability at a glance.

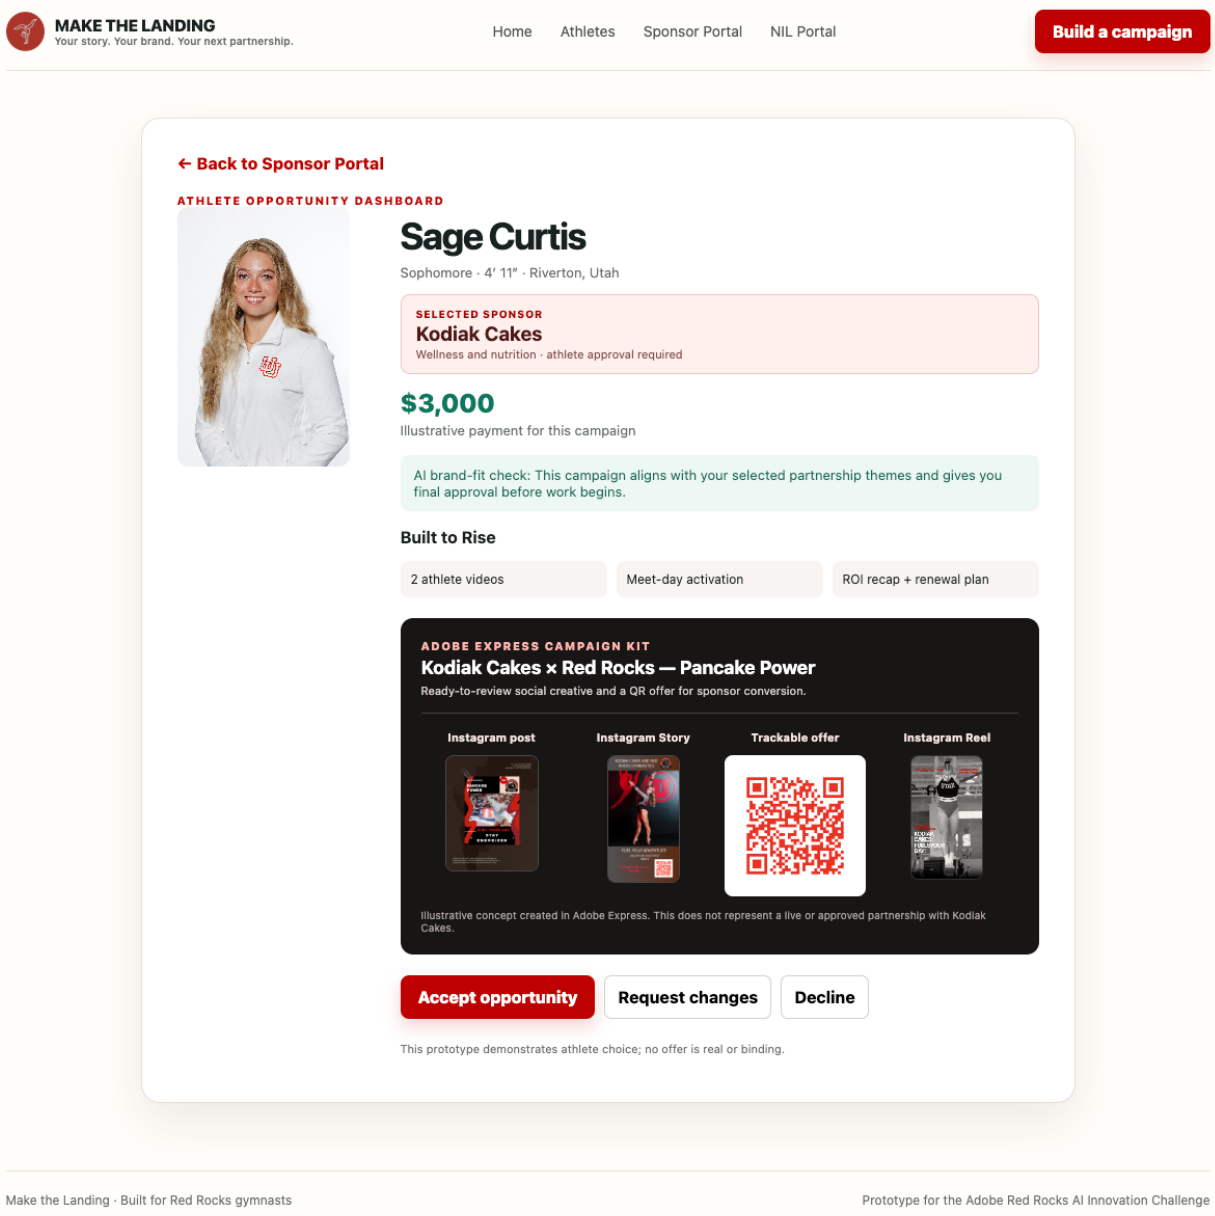

03 SPONSOR CAMPAIGN BUILDER

A sponsor selects its goals, audience, campaign tier, and activation style to receive a tailored recommendation.

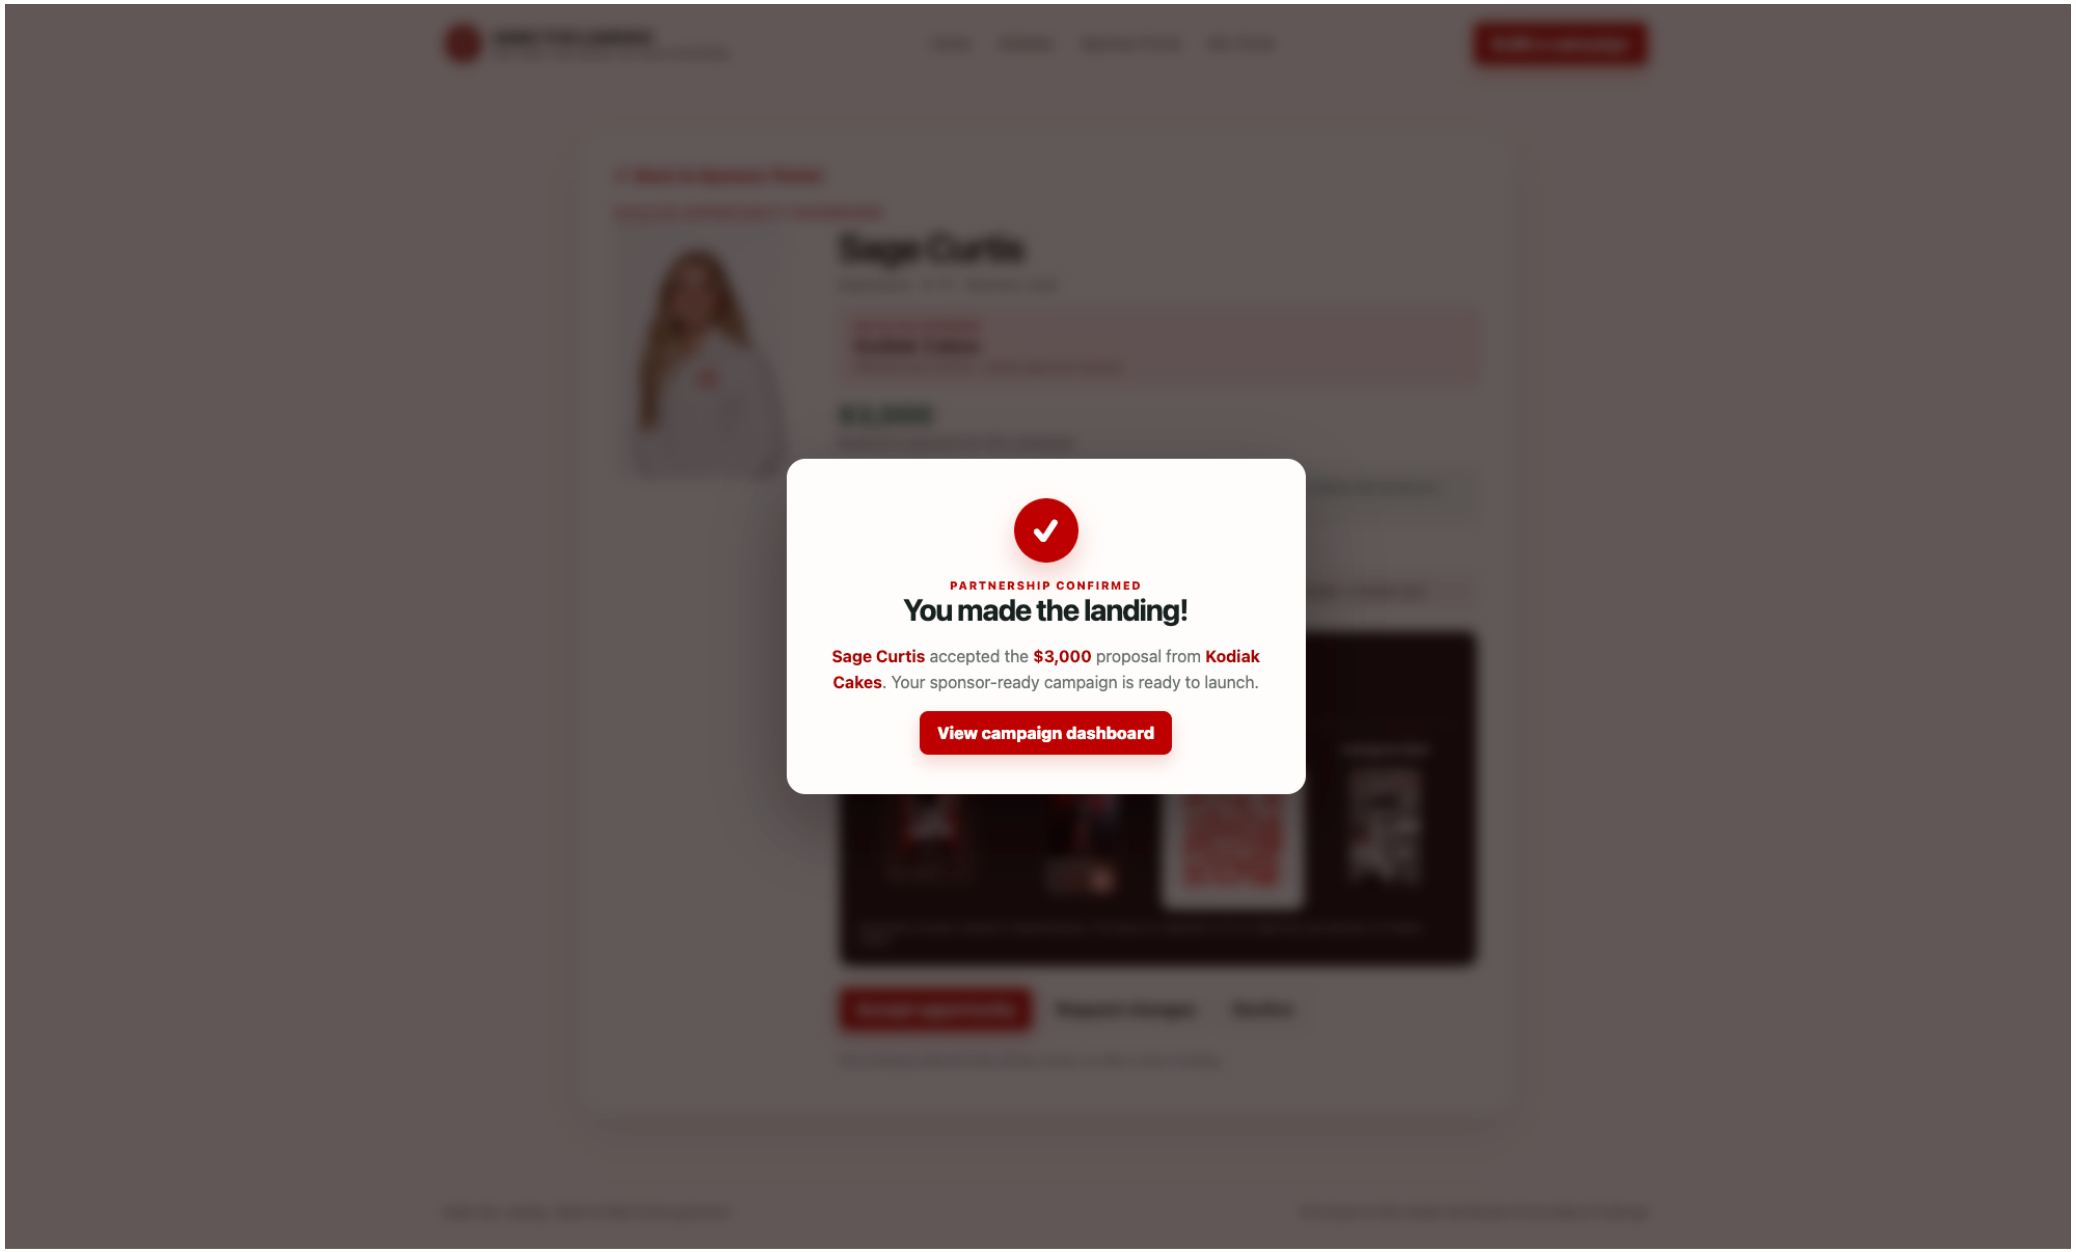

04 ATHLETE APPROVAL

The recommended athlete reviews the sponsor, proposed deliverables, and campaign creative before choosing to accept, request changes, or decline.

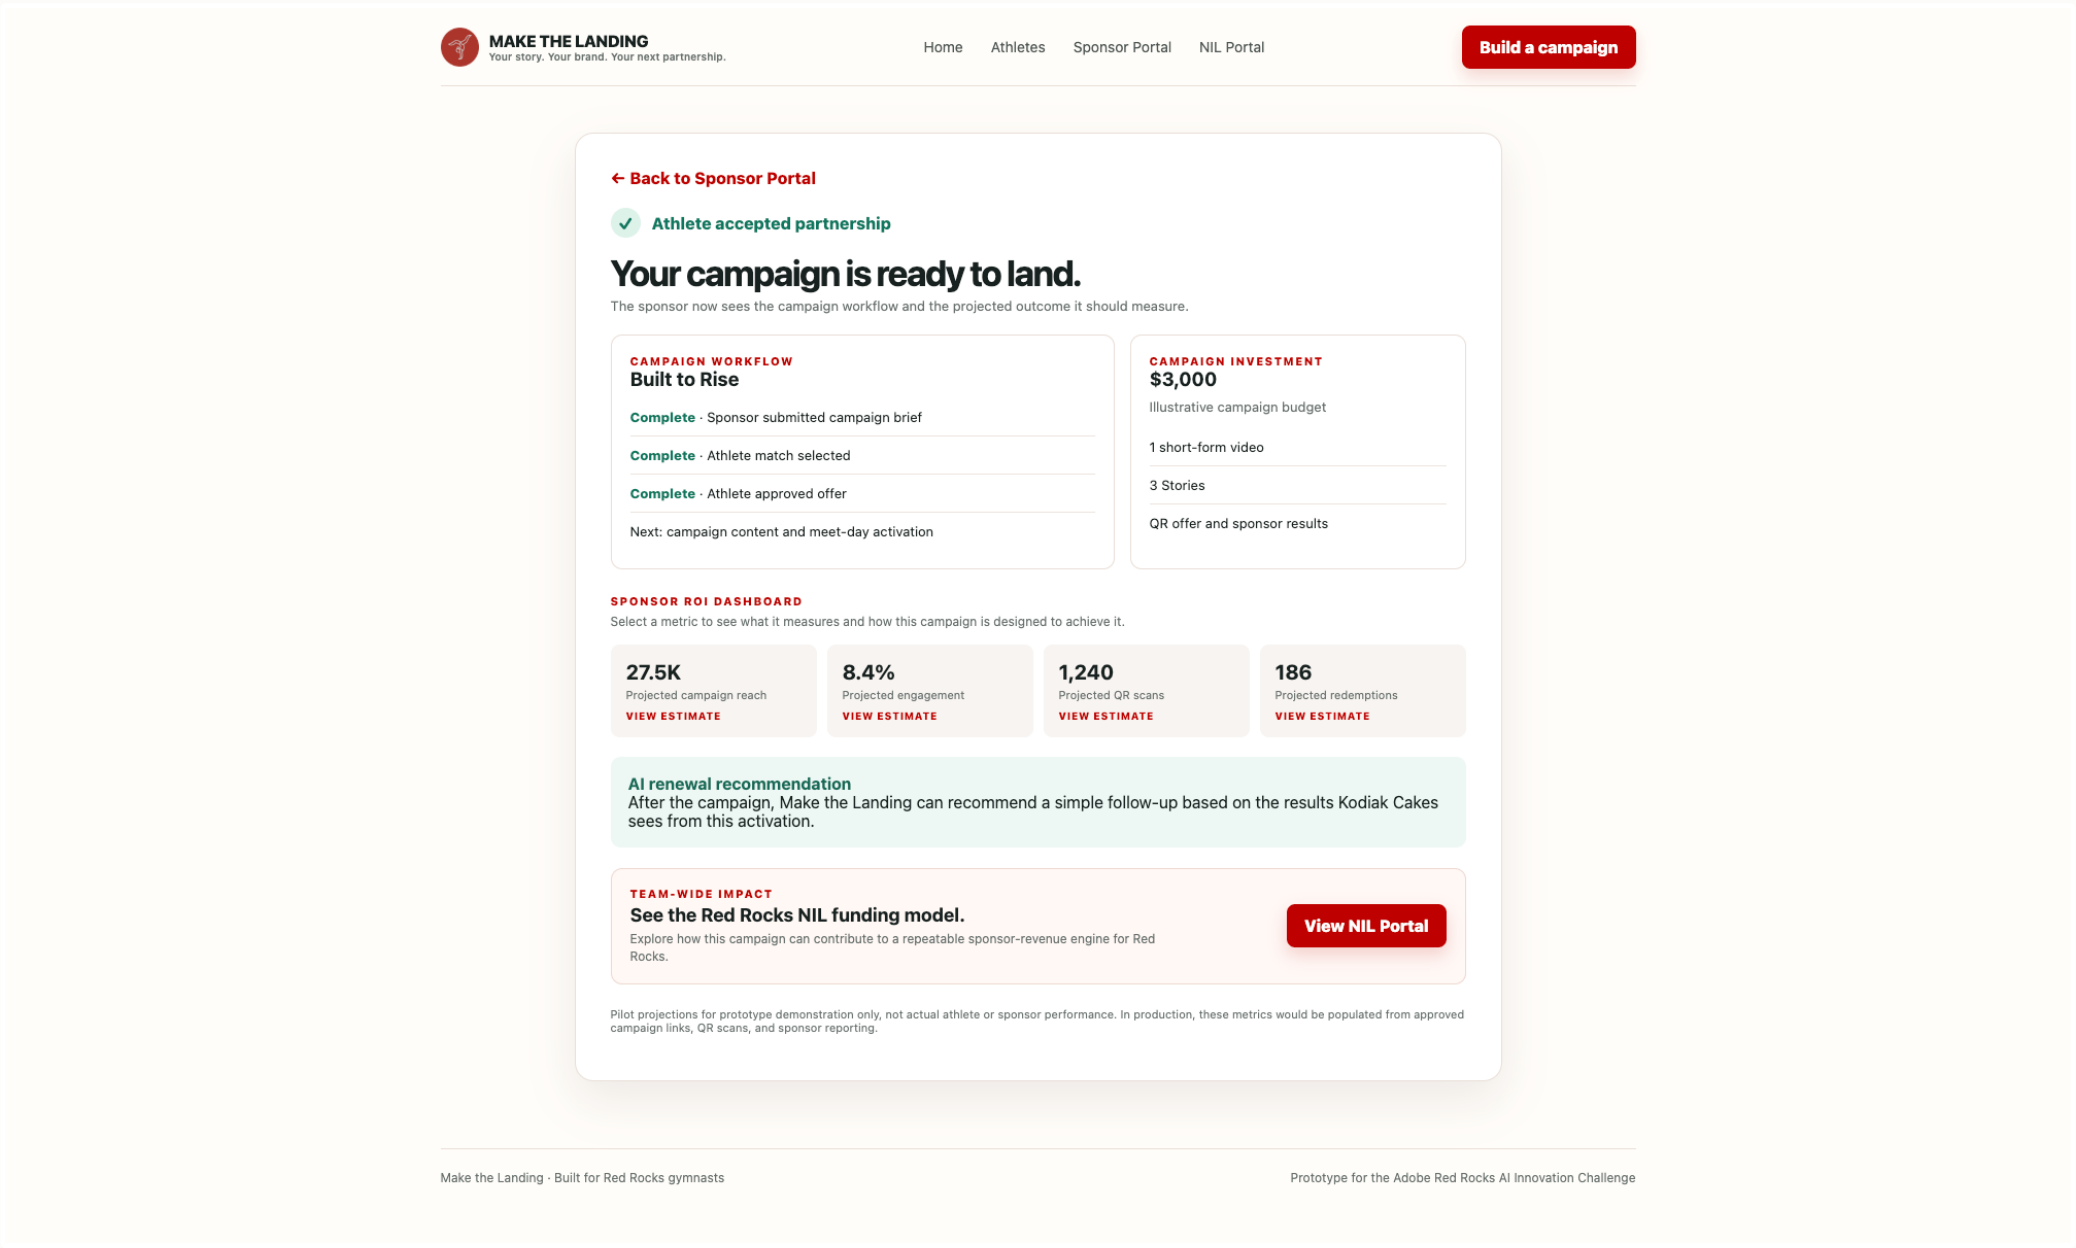

05 PARTNERSHIP CONFIRMATION

A clear confirmation moment shows that the athlete-approved campaign is ready to launch.

06 SPONSOR ROI DASHBOARD

After approval, the sponsor sees deliverables, projected campaign signals, and a renewal recommendation.

07 NIL PORTAL

The funding model makes the business case explicit: measurable sponsor campaigns can become repeatable NIL opportunities.
